

Crystal River

At

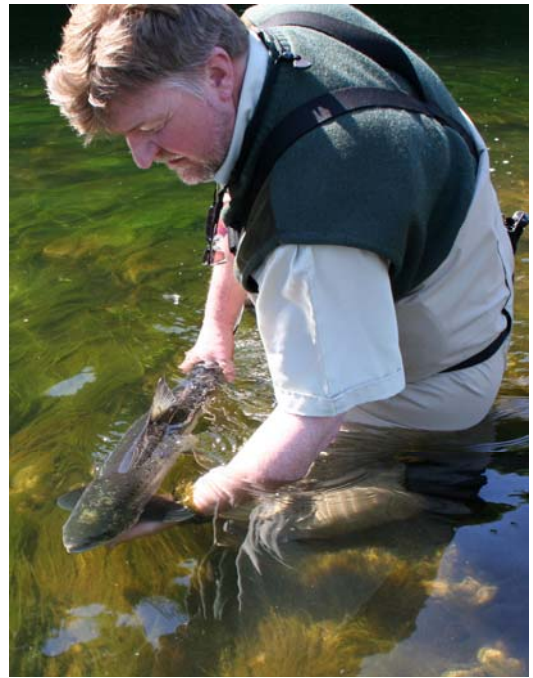

South Tynes Open Day - 2009

Paul Vernon

Paul is Managing Director and joint owner with his wife, Judith, of Crystal River.

Both are committed to supplying a premiere, quality range of both classic and innovative flies and fly tying materials for all forms of game fishing, ranging from the smallest wild trout stream to the warm salt

waters of the world and everything in between. It also means working with selected dealers who have the same ideals.

With a passion for Atlantic salmon, Paul has developed business interests in New Brunswick for destination fishing on the mighty Miramichi, supporting Crystal River dealers taking advantage of the private Lodge based business in the Doaktown area. During the last 12 months he has also generated similar activities in the Bahamas, targeting Bone Fish.

Both as a business owner and a qualified Casting Instructor in both Single and Double Handed disciplines, Paul is very excited at the developments currently taking place in the Game fishing world
